

§ 241.7

33 CFR Ch. II (7–1–13 Edition)

(c) When $0 < EF < 1$, the sponsor may defer a fraction of the maximum allowable amount described in § 241.6(a), where the fraction equals the Eligibility Factor expressed to three decimal places. Continuing the example described in § 241.6(a), if $EF = .712$, total allowed deferral equals $.712 \times 20$ percent = 14.2 percent of total project costs.

(d) The deferred payment can be made in equal installments over any period of time selected by the non-Federal sponsor, provided that all repayments are made between the end of construction and thirty years thereafter. The amount repaid shall include interest during the repayment period as well as interest for the appropriate portion of the construction period for any amounts deferred prior to the end of construction. The rate of interest shall be determined in accordance with the provisions of section 106 of Pub. L. 99–662, 33 U.S.C. 2216.

[54 FR 40581, Oct. 2, 1989, as amended at 60 FR 5134, Jan. 26, 1995]

§ 241.7 Application of test.

(a) A preliminary ability to pay test will be applied during the study phase of any proposed project. If the ability to pay cost-share is lower than the standard share, the revised estimated cost-share will be used for budgetary and other planning purposes.

(b) The official application of the ability to pay test will be made at the time the Project Cooperation Agreement (PCA) between the Corps of Engineers and the Non-Federal sponsor is signed. For structural flood control projects, the standard level of cost-sharing will not be known until the end of the project (since the standard level as specified in section 103(a), 33 U.S.C. 2213, includes LERRD). In this case, if the Eligibility Factor is greater than zero but less than one, the ability to pay non-Federal share will be determined using estimated costs.

(c) The PCA for all projects subject to the ability to pay test will include a “whereas” clause indicating the results of the test. If the project is eligible for a lower non-Federal share:

(1) The revised share will be specified in the PCA (there will be no recalculation of this share once the PCA is signed).

(2) An exhibit attached to the Project Cooperation Agreement (PCA) will include the Benefits Based Floor (BBF) determined in § 241.5(a); the Eligibility Factor (EF) determined in § 241.5(b); If the Eligibility Factor is greater than zero but less than one, the estimated standard non-Federal share; the formula used in determining the ability to pay share as described in § 241.5(c)(1) through (c)(4); and a display of the non-Federal cost share under the high cost criteria described in § 241.5(d).

(d) If at the time of project completion, the standard non-Federal share based on actual costs is less than the ability to pay share specified in the PCA, the standard share will apply.

(e) *For structural projects.* (1) If the standard LERRD plus cash requirement exceeds the ability to pay cost-share, the Federal Government will make any necessary adjustments in expenditures in the following order: First, paying any cash requirement in excess of five percent of total project costs (if any) that would, under standard cost-sharing, have been the responsibility of the non-Federal sponsor; second, making payments for LERRD; and third, providing for reimbursement at the end of construction. Federal payments for LERRD will be made only after the non-Federal payment for LERRD reaches a percentage of total project costs equal to the ability to pay non-Federal cost-share less the five percent cash requirement. If such arrangements are necessary, the PCA should be prepared to reflect agreement on the best manner available for acquisition of those LERRD over the limiting percentage, or for reimbursing the sponsor upon completion of construction.

(2) The non-Federal sponsor will be required to provide a cash payment equal to the minimum of five percent of estimated project costs, regardless of the outcome of the ability to pay test, unless any or all of the five percent cash requirement is waived by application of the high cost criteria described in § 241.5(d). The project sponsor shall make cash payments during construction at a rate such that the amount of non-Federal payments in each year, as a percentage of total non-Federal cash payments, equals the

amount of Federal expenditures (including sunk pre-construction engineering and design costs as a first year Federal construction expenditure) as a percentage of total Federal expenditures. Total Federal expenditures include cash payments for construction and if necessary (due to ability to pay considerations), for LERRD, and for reimbursement to the non-Federal sponsor. Total Federal expenditures for the purpose of this calculation, do not include expenditures which allow the non-Federal sponsor to defer payment of the non-Federal share under the provisions of this rule.

(f) For non-structural projects, reductions in the non-Federal cost-share as a result of the ability to pay test will not affect the procedures for determining the non-Federal and Federal payment schedules. For non-structural projects, no specific cash payments during construction are required by law.

PART 242—FLOOD PLAIN MANAGEMENT SERVICES PROGRAM ESTABLISHMENT OF FEES FOR COST RECOVERY

Sec.

242.1 Purpose.

242.2 Applicability.

242.3 References.

242.4 Definitions.

242.5 General.

242.6 Fee schedule.

AUTHORITY: Section 321 of Pub. L. 101-640, 74 Stat. 500 (33 U.S.C. 709a).

SOURCE: 56 FR 54712, Oct. 22, 1991, unless otherwise noted.

§ 242.1 Purpose.

This part gives general instructions on the implementation of section 321 of Public Law 101-640, 74 Stat. 500 (33 U.S.C. 709a) as it applies to the use of a Fee Schedule for recovering the cost of providing Flood Plain Management Services to Federal agencies and private persons.

§ 242.2 Applicability.

This part applies to all HQUSACE elements, Major Subordinate Com-

mands, and District Commands of the Corps of Engineers having Civil Works responsibilities.

§ 242.3 References.

The references in paragraphs (b) and (c) of this section may be obtained from USACE Pub. Depot, CEIM-SP-D, 2803 52d Avenue, Hyattsville, MD 20781-1102.

(a) Section 321, Public Law 101-640, 74 Stat. 500 (33 U.S.C. 709a).

(b) Corps of Engineers Engineering Regulation 1105-2-100, Planning Guidance Notebook.

(c) Corps of Engineers Engineering Pamphlet 37-1-4, Cost of Doing Business.

§ 242.4 Definitions.

As used in this part:

Private persons means all entities in the private sector, including but not limited to individuals, private institutions, sole proprietorships, partnerships, and corporations.

Total cost means total labor charges which include adjustments for benefits, administrative overhead, and technical indirect costs. These terms are described in the reference in § 242.3 (c).

§ 242.5 General.

(a) The Corps of Engineers Flood Plain Management Services Program provides a wide range of flood plain and related assistance upon request. Depending on the complexity of the request, either a nonnegotiated Fee Schedule or a negotiated agreement will be used to recover the cost of services provided to Federal agencies and private persons. This part involves only the nonnegotiated Fee Schedule.

(b) State, regional, or local governments or other non-Federal public agencies will be provided Flood Plain Management Services without charge.

§ 242.6 Fee schedule.

(a) *General.* The Fee Schedule described in this section will be used to recover the cost for Flood Plain Management Services requiring more than ten minutes and up to one work day to provide. The Fee Schedule has been designed to minimize administrative costs and to allow the flexibility needed to recover the approximate total
